Abdomen	\$75
Lower or Upper Legs	\$150
Half Back	\$100
Full Back	\$175
Shoulders	\$80

### **Color Match Consultation**

Let us show you how to get that flawless finish with our mineral cosmetics. We will select the perfect color for your skin with just the right amount of coverage to give you a lightweight feel with a natural look.

### **Dermal Fillers**

Restylane and Juvederm are safe cosmetic fillers administered by our physicians that restore volume and fullness to the skin to correct wrinkles and folds such as around the mouth and facial lines.

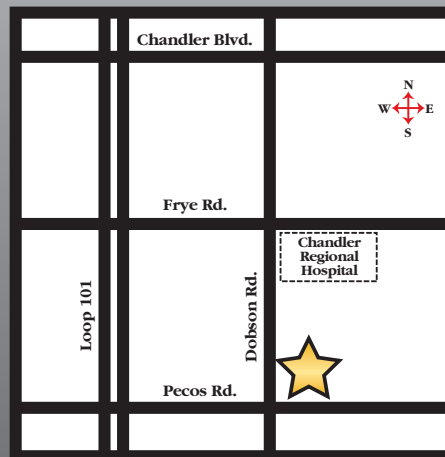

### **Botox**

A simple, non-surgical procedure administered by our Board Certified Dermatologists that smooths the lines between your brows, as well as "crow's feet" around the eyes and other facial lines. The natural, purified protein relaxes the muscles that cause wrinkles.

Your Dermatologist and Aesthetician will work together to provide you with a balanced skin care program that is right for you.

### **We proudly offer the following selection of quality skin care products:**

PCA Skin, Vivier Pharma, Jane Iredale Mineral Cosmetics, Anthelios and an excellent line of sun protective hats with UPF 50.

## Aesthetic Treatment Services Offered

---

### Consultation

In your 30 minute consultation you will discuss your skin concerns with our Aesthetician. Treatment options will be recommended based on your individual skin care needs.

### PCA Skin

PCA professional chemical peels are gentle, not-toxic, light to medium range peels. These treatments will help stimulate, firm and tighten the skin. They address a wide range of skin types and conditions using ingredients such as alpha hydroxy acids, TCA, salicylic acid, resorcinol, retinol, tyrosinase inhibitors, antioxidants and polyphenols.

### Microdermabrasion

Microdermabrasion uses micronized crystals to gently yet effectively exfoliate and resurface the skin and can often be used with a light chemical peel. This is an excellent treatment for skin conditions such as sun damage, fine lines and mild acne.

### Dermaplane

Dermaplaning is a physical exfoliation of the skin using a fine edge tool to remove skin cells and excess facial hair. It is often used in conjunction with a light chemical peel giving a youthful glowing complexion without peeling or discomfort.

### Vivier Skin Tx Restore Treatment

The Vivier Jessner Peels are a unique professional procedure that safely provides controlled exfoliation of damaged skin. This is a medium depth peel that helps reduce the appearance of fine lines, acne scars, sun damage and melasma. This Jessner Peel induces a superficial peeling with ingredients that will also calm and soothe any redness.

### Smoothing Body Peel

A Smoothing Body Peel is an excellent choice for promoting an even skin tone and clear complexion on the décolletage, arms and hands. It uses a unique chemical blend to improve the appearance and texture of the skin with a combination of exfoliating, smoothing and brightening ingredients.

---

### 60 Minute Signature Facial

This custom facial offers you one hour of deep relaxation while we assess your skin needs. Our therapeutic facial includes a deep cleansing followed by a rejuvenating massage to the face, neck and décolletage, a revitalizing eye treatment and a hydrating hand massage. Ideal for all skin types.

### Micropen Micro-Needling

The Eclipse MicroPen uses a process called Automated Micro-Needling, or Collagen Induction Therapy (CIT), to treat fine lines, wrinkles, and acne scars by stimulating production of the skin's own collagen and elastin. Both found naturally in the skin, collagen and elastin help give skin a healthy glow and more youthful appearance. The micro-channels created by the pen also allow the skin to better absorb topical creams, gels, and serums.

### Laser Genesis

Laser Genesis is a non-invasive skin rejuvenation treatment to treat fine line wrinkles, large pores, an even skin texture, diffuse redness and scars. You will experience a gentle warming of the skin's surface, often described as therapeutic and relaxing. Laser Genesis stimulates collagen regrowth by gently heating the upper layers of the dermis. On average 3 to 5 treatments are recommended, 4 weeks apart.

### Limelight Photofacial

Finally, a treatment that quickly and effectively removes brown spots and improves redness and rosacea. The intense pulsed light (IPL) is absorbed by the pigmented spots and not the surrounding skin. Treated spots lighten or disappear within a couple of weeks. 3-5 treatments are recommended, 4-6 weeks apart.

### Laser Hair Removal

Laser hair removal is safe and effective for all skin types. Men and women alike can enjoy the reduction of unwanted facial or body hair. The hair must be dark for the treatments to work. Most areas require a minimum of 5 to 6 treatments.

### Laser Vein Removal

Laser Vein Removal is an excellent option to reduce those unsightly red and blue veins on the face and/or body. This treatment is also excellent for elimination of cherry angiomas and hemangiomas.
